London, United Kingdom - July 16, 2018

Greensill, a market-leading provider of working capital finance for companies globally, announced today it has received a strategic investment from General Atlantic, a leading global growth equity firm. General Atlantic's \$250 million investment values Greensill at \$1.64 billion.

Founded in 2011, Greensill provides businesses with alternative sources of funding, allowing them to provide suppliers with the opportunity for faster payment, while at the same time preserving their own capital position. Greensill has facilitated payments to 1.5 million suppliers and provided over \$40 billion of financing across 50 countries since inception.

In its next phase of growth, Greensill plans to work closely with General Atlantic to drive continued expansion by developing new partnerships with global corporates, deepening its existing client relationships, and investing further in technology to deliver best-in-class products and services to its customers.

Lex Greensill, Founder and Chief Executive Officer of Greensill, said, "This is a fantastic endorsement from one of the world's leading global growth equity firms. We look forward to working closely with General Atlantic, which is known for partnering with entrepreneurial firms to accelerate growth and build global brands. "Greensill is a leader in its field and has developed an innovative and attractive service that provides the market with highly sought-after yield opportunities. With its fully integrated technology and funding solutions, the company has a competitive advantage in the underserved supply chain finance market, where \$3.5 trillion of working capital is locked up at any given moment," said Gabriel Caillaux, Managing Director and Head of EMEA at General Atlantic, who will join the company's board of directors.
