Huntington Beach, California - March 28, 2018

Landmark Health (“Landmark” or the “Company”), a leading provider of in-home, risk-based medical care, is pleased to announce that General Atlantic, a leading global growth equity firm, has made a strategic investment in the Company.

Landmark is a leading risk-based provider group that delivers home-based medical care for chronically ill patients. Landmark’s physicians, nurse practitioners, and physician assistants are available for urgent care 24/7 and are supported by a field-based interdisciplinary team of behavioral health providers, palliative specialists, pharmacists, social workers, dietitians, and nurses. Through its risk-based model of care, Landmark benefits only through material and measurable improvement in the clinical and quality outcomes of its patients.

Founded in 2013, Landmark has rapidly grown to serve over 80,000 patients suffering from complex, chronic conditions and has a presence in California, Massachusetts, New York, Oregon, Pennsylvania, and Washington State. In its next phase of growth, Landmark plans to continue its expansion into additional markets, including Kansas, Kentucky, Louisiana, Mississippi, Missouri, North Carolina, and Ohio.

“We are excited to welcome General Atlantic as a strategic partner,” said Adam Boehler, Founder and CEO at Landmark. “We believe Landmark is transforming how healthcare is delivered to clinically complex patients across the country. Robb and the entire team at General Atlantic share our vision to dramatically improve access to care and quality of life for these patients who need it the most.”
